If they win ...only our dead are free

[illegible] have [illegible] one idea — to kill, and kill, and kill, until they conquer the world.

Then, by the whip, the sword and the gallows, they will rule.

No longer will you be free to speak or write your thoughts, to worship God in your own way.

Only our dead will be free. Only the host who will fall before the enemy will know peace.

Civilization will be set back a thousand years.

Make no mistake about it — you cannot think of this as other wars.

You cannot regard your foe this time simply as people with a wrong idea.

This time you win — or die. This time you get no second chance.

This time you free the world, or else you lose it.

Surely that is worth the best fight of your life.

— worth anything that you can give or do.

Throughout the [illegible] this [illegible] vening need for [illegible] war service. T[illegible] the help of every citizen, the [illegible] has organized the Citizens [illegible] corps as part of local Defense Councils. [illegible] Defense council [illegible] of [illegible] has now set up [illegible] help [illegible] organize [illegible] every [illegible] in every possible way. Write this magazine for a free booklet telling [illegible] what [illegible] do and how to do it. Join the fight [illegible] now.

EVERY CIVILIAN A FIGHTER
